

INSTALLATION INSTRUCTIONS FOR POLYCARBONATE SHIELD KIT P/N 4497 (4FT) 3 LAMP FLUORESCENT LIGHT FIXTURES

- 1. Remove (4) 1/4-20 x 7/8" long hex head bolts from the fixture reflector.
- 2. Position polycarbonate shield on light fixture so that sides of shield fit up into reflector as shown.
- 3. Secure shield to fixture using 1/4-20 x 1 1/4" long hex head bolts with flat washers in place of the removed 7/8" long bolts.
- 4. Installation of the polycarbonate shield onto the light fixture is now complete.
- 5. This fixture should be installed by qualified technicians in strict accordance with the National Electrical Code and any local requirements.
